Your only chance!

# This Is Your One Chance!

## This Is Your One Chance!

I'm not talking about this very moment, although you never know, this could be your final moment. I'm speaking of your life as a whole. You see, when you pass this life you won't get another opportunity to hear the gospel and be saved. You'll be like the rich man in Lazarus in Luke 16. At his passing, He ended up in Torment.

I'm sure you know the true story. God knew before the foundation of the world that mankind (to be PC, people-kind) would leave His loving care and strike out on their own, committing sin as they move through life.

And how God sent His Son Jesus to save them from Hell. You see, if people die without being reconciled to God first, they go to Torment and after the judgment, they move on to Hell.

### This Is Your One Chance!

It's just a fact that in God's way of things, He requires death for sinners. So Jesus came to take our place for our sins. He died in our stead. And that's just the first step in accepting the salvation God offers by His goodness, grace.

So in this life, you need to figure out what God requires of you for salvation, unless of course, you don't want to go to heaven. For some strange reason, many people prefer Hell. I suppose it's because that's all they know here on earth - Hell, I mean.

God can definitely clean up your life but you have to listen and then you have to do. He can clean up your earth life if you'd just do as He says. There is no greater love than His love. You can know you're going to heaven. First John says we can know we're good if we keep His commandments - that's the doing.

### This Is Your One Chance!

There is no place like heaven and you can have a home there if you find salvation now. Heaven is like no other place on earth. Ever see earth's beauty first hand? Heaven is exponentially more beautiful.

God is there of course and so are Jesus and the Holy Spirit. All kinds of angels are there too. And all the Saints will be there, all the people who found salvation in this life. There will be singing as you've never heard, the most awesome sounds of praise to God. God and Jesus will be the light in that heavenly city, there's no need for the sun or the moon. Our minds cannot fully grasp just how fantastic heaven will truly be.

Your conscience can be cleared here too, once you've found salvation. Ever had a hurt conscience? It hurts because you've done something horribly bad. God can make that clear again.

# This Is Your One Cnance!

There's just a boatload of reasons why you'd want to find salvation in this, your one earthly life. It's really all about love. Some people never have love. Life's circumstances have just prevented some folks from having it. Some people never get enough love, not like they're mental or anything, they just didn't receive the needed amount of love to live. Some people, on the other hand, are just filled with love - love from a godly family, love from a church family, and the greatest of all? God's love.

So don't miss your opportunity. Find out how to be saved. Really. Truly. I can help guide you through the Bible to find your salvation in Jesus, just as God wants.

Hurry before this offer expires!
